

MULTIPURPOSE

Advantage Sports & Leisure has a comprehensive range of multipurpose synthetic grass products designed to suit a wide range of sport applications. With a selection of bright colours and in-built lines, synthetic grass multipurpose courts suit most sporting games.

Advantage Sports & Leisure will assist in selecting the right synthetic surface to compliment your desired range of sports requirements. These can include Futsal, soccer, volleyball, basketball, tennis, handball, hopscotch and track and field.

SYNTHETIC GRASS

Advantage Multipurpose

Advantage Multipurpose grass is a 19mm mono-colour with a wide choice of coordinating colours. Depending on your usage this product can be single or double backed for extra strength and stability. This is the economical choice for schools, clubs and resorts wanting to convert bare ground or damaged asphalt play areas into functional and attractive multi-usage facilities.

Active Play

Active Play is a 40mm multipurpose sports grass. It provides an appearance of natural turf and is ideal for sports such as soccer, netball, volleyball and Futsal. Active Play is designed to be low-friction and as a double backed product will survive the highest of traffic areas.

Advantage Sports & Leisure multipurpose synthetic grass provides a cool and comfortable play surface in wet and dry conditions.

The Advantage Sports & Leisure synthetic grass range requires no water which is great for clients wanting to make a real contribution to water conservation.
