

TENNIS

Advantage Sports & Leisure synthetic grass tennis courts are made to order with integrated line marking in kit format to reduce seaming. Our products are designed to suit all abilities and needs from schools and residential to high-use commercial tennis centres.

Our synthetic grass tennis courts are produced from environmentally friendly yarns which are heavy metal free, have the highest ultraviolet protection available, and are made to handle the harsh Australian environment.

Court Turf PE

Court Turf PE offers unsurpassed value for money and is available in a range of colours. Court Turf PE requires minimal maintenance and can be installed over existing asphalt or concrete courts.

Court Turf PE is also suitable as a multisport surface for schools and community centres and has a 7 year manufacturer warranty.

Top 10 HP

Top 10 HP is a commercial grade tennis court system suitable for club tennis. Top 10 HP is constructed from heavy weight PE yarn which is ideal for tropical and subtropical climates. Due to its pile construction, Top 10 HP is heavily resistant to crushing.

Top 10 HP has an 8 year manufacturer warranty.

ProBounce HP

ProBounce HP combines all the latest in-house yarn technology including texturized monofilament for superior aesthetics and reduced heat generation.

ProBounce PE is an ITF-classified synthetic grass tennis system suitable for high end residential to multi-court club applications and has a 7 year manufacturer warranty.

Note, all new sand filled surfaces require a settling in period during which the sand compacts below the top of the yarn blade and should be maintained at that level for the life of the court.
