

SYNPAVE

LONG LIFE SPORTS COURT SURFACE

Suitable for private, commercial, school or club use, REBOUND SYNPAVE provides a durable, economical, high performance surface which retains its colour and performance properties of weather and temperature. It is a popular choice for multi-purpose sports courts and complexes and delivers excellent ball bounce, grip and long life. Synpave is suitable to resurface existing areas and/or aged asphalt eliminating dangerous safety issues and extending the life of the surface.

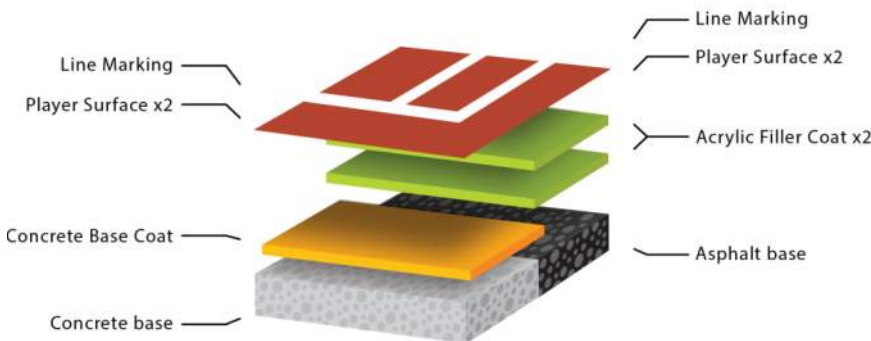

Mareeba Community Recreational Precinct

Rebound Ace Sports is Australia's leading manufacturer and exporter of acrylic sports surfaces. Our products are fully manufactured in Australia and have been proven and tested all around the world for in excess of 30 years. All products are water-based and ecologically responsible.

Keeping your Synpave court looking brand new for years to come is as simple as sweeping/blower vac, spot cleaning and pressure wash every few years as you require. Squeegee off water after heavy rain and play again in minutes. The Synpave product provides the lowest "life cycle cost base" of any similar product available.
