

SYNPAVE PLAY

NON SLIP SPORT & RECREATION SURFACES COATING

SYNPAVE PLAY concrete coating will lift, protect and boost the appearance of new or tired, worn and pitted recreational areas.

Without the necessity of a primer SYNPAVE PLAY will bond tenaciously to concrete or asphalt bases.

SYNPAVE PLAY provides you with a surface of unparalleled wear resistance and non-slip characteristics proven in the uncompromising world of sports activities.

Tested to Australian Standard AS/NZS 4586:2004 Slip Resistance of New Pedestrian Surface Materials Wet Pendulum result 68V (High) and Oil Wet Ramp result R13 (Medium).

A unique formula of binders and mineral fillers ensure that the SYNPAVE PLAY concrete coating will outlast conventional acrylics because it cures harder and has long term resistance to weathering and fading, and excellent wear and water resistance. The anti fungal/mould additive promotes an aesthetically pleasing look which lasts longer than any rival product.

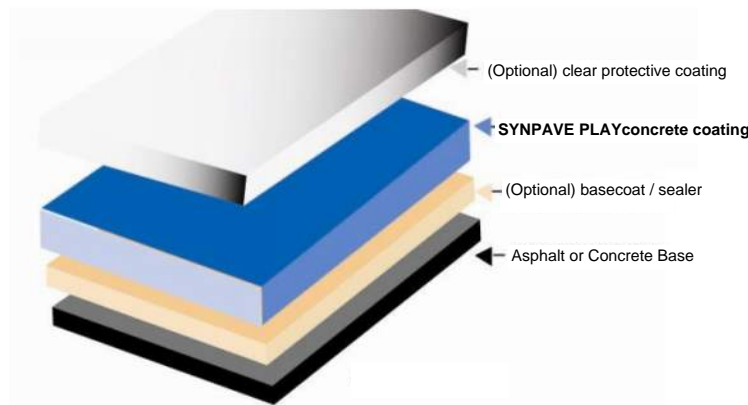

A range of UV stable colours are available.

Collimore Park, Liverpool, NSW

Edge Hill State School, Cairns, QLD

- Playgrounds
- Recreational areas
- Pathways
- Bikeways
- Walkways

SYNPAVE PLAY

SYNPAVE PLAY is a pre-mixed, pre-coloured water based, slip-resistant UV stable coating with excellent performance against wear and weathering, providing a rejuvenated fresh and safe surface coating that is suitable for internal and external use.

Edge Hill State School, Cairns, QLD

- Suitable for internal and external use
- Excellent weather resistance
- UV stable
- Fast drying
- Can be used on most common flooring surfaces such as: concrete, asphalt, timber, timber decking, cement sheeting, plywood and most metals and steel

Isabella State School, Edmonton, QLD

- Application of the "Learn-to-ride" track feature enables schools to implement traffic safety training
- Can be used for bicycle education and road safety
- Children can learn to ride in a safe environment
- Experience riding on a ride circuit with simulated road conditions
- Can assist with pedestrian education

Life expectancy

The very high abrasion and wear resistance properties of the SYNPAVE PLAY surface means a longer life before recoating. When the optional clear protective coating is added to the system, the life expectancy is increased substantially with the assurance of an oil / stain resistant surface.

Maintenance recommendations

Maintaining the appearance of SYNPAVE PLAY requires minimal but regular attention to the surface, generally sweeping debris off the surface with a broom and hosing down.
